

Contents

NUMBER 1, FEBRUARY 1982

Hypothesis

- 1 Significance of skeletal muscle oxidative enzyme enhancement with endurance training
P. D. Gollnick and B. Saltin

Original articles

- 13 Biotelemetric detection of the disappearance of subcutaneously injected ^{125}I -NPH insulin
K. Kolendorf and J. Bojsen
- 21 Muscle citrate content and the regulation of metabolism in fed and fasted human skeletal muscle
R. J. Maughan and C. Williams
- 29 Local regulation of subcutaneous blood flow in normal subjects and in migraine patients before and after single-dose ergotamine tartrate
J. H. Eickhoff and P. Tfelt-Hansen
- 39 Effect of hyaluronidase on substrate exchange and blood flow in the ischaemic myocardium of the dog
O. A. Smiseth, H. Refsum, H. Vik-Mo and O. D. Mjos
- 51 Pathophysiology of metabolic acidosis: effect of low pH on the hepatic uptake of lactate, pyruvate and alanine
L. Sestoft, P. D. Bartels and M. Folke
- 59 Effect of bicycle exercise on insulin absorption and subcutaneous blood flow in the normal subject
E. Ferrannini, B. Linde and O. Faber
- 71 Optimal conditions for assay of cytochrome-c-oxidase activity in human skeletal muscle tissue
A.-C. Bylund-Fellenius, M. Davidsson, A. Arvidsson, A. Elander and T. Scherstén
- 81 Instructions to authors

NUMBER 2, APRIL 1982

Editorial

- 85 Prostaglandin therapy for peripheral vascular disease—better than placebo?
Å. Wennmalm

Original articles

- 89 Perfusion of the intervillous space of the human placenta measured with ^{99}Tc labelled human serum albumin
K. Vitting Andersen, S. Vitting Andersen, O. Munck, J. Falck Larsen, S. Levin Nielsen and H. Kjeldsen
- 97 Hyperinflation on hyperventilation—a simple test to detect early airway disease
L. Jorfeldt and B. Wranne

Contents

- 105 Influence of mixed venous Po_2 on diffusion of O_2 across the pulmonary blood : gas barrier
P. D. Wagner
- 117 Non-invasive investigation of vascular compression in patients with thoracic outlet syndrome
J. Sällström and O. Thulesius
- 127 Variability, reproducibility and observer difference of body plethysmographic measurements
D. B. Teculescu, A. B. Bohadana, R. Peslin, J. Pino and J. M. Jansen da Silva
- 139 Osteoporosis and normality: how to express the bone mineral content of lumbar vertebrae
B. Krølner
- 147 Bone mass of the axial and the appendicular skeleton in women with Colles' fracture: its relation to physical activity
B. Krølner, E. Tøndevold, B. Toft, B. Berthelsen and S. Pors Nielsen

Technical note

- 159 Single detector renography with ^{131}I -Hippuran and $^{99\text{m}}\text{Tc}$ -DTPA: a comparison
B. Wranne and J. Svedberg

Letters to the Editor

- 163 Prostaglandin E_1 therapy for peripheral vascular disease is better than placebo
L. A. Carlson and A. G. Olsson
- 165 *B. J. Pardy and H. H. G. Eastcott*

NUMBER 3, JUNE 1982

Original articles

- 167 Moments analysis in clinical spirometry—a cul-de-sac?
J. R. Vale
- 181 Ventilation-perfusion relationships in children
G. Hedenstierna, U. Freyschuss, G. Hedlin, C. Thorén and G. Wallgren
- 189 The influence of inosine on the size of myocardial ischaemia and myocardial metabolism in the pig
W. Czarnecki and K. Herbaczynska-Cedro
- 199 Myocardial extraction of insulin in patients with valvular aortic stenosis
R. Ekroth, H. Emanuelsson, A. Hjalmarsson, J. Holm, T. Scherstén, F. Waagstein, A. Waldenström and G. William-Olsson
- 205 Radionuclide assessment of right ventricular ejection fraction: a comparison of first pass studies with ^{133}Xe and $^{99\text{m}}\text{Tc}$
J. A. Dahlström
- 215 Left ventricular response to graded isometric exercise in patients with coronary heart disease
A. A. Ehsani, W. H. Martin III, G. W. Heath and S. A. Bloomfield

Contents

- 225 A reproducible and stable model of acute ischaemic left ventricular failure in dogs
O. A. Smiseth and O. D. Mjøs
- 241 Early changes in blood-brain barrier permeability after porto-caval shunt and liver ischaemia
J. F. Crinquette, M. Bosch, J. R. Rapin, M. L. Delorme and P. Opolon
- 251 Body mass index and physical fitness as determinants of serum lipoprotein levels in middle-aged men
K. Kukkonen, R. Rauramaa, E. Voutilainen and E. Hietanen

NUMBER 4, AUGUST 1982

Editorial

- 263 Insulin pump treatment for diabetes: unanswered questions
P. Felig and M. Bergman

Original articles

- 269 Augmentation of exercise ventilation by medroxyprogesterone acetate
H. T. Robertson, R. B. Schoene and D. J. Pierson
- 277 Metabolic adaptations in post-exercise recovery
G. Krzentowski, F. Pirnay, A. S. Luyckx, N. Pallikarakis, M. Lacroix, F. Mosora and P. J. Lefèbvre
- 289 Electrocardiographic and vectorcardiographic findings in asymptomatic young men with primary T-wave aberrations in the electrocardiogram. Relationship to sympatho-adrenal activity at rest and during different stress tests
J.-H. Atterhög, K. Eliasson and P. Hjerdahl
- 299 Electrophysiological and mechanical effects of sulphinpyrazone on isolated rat atria
O. Kristiansen, H. Refsum and R. Hotvedt
- 307 The effect of physical training in elderly subjects with special reference to energy-rich phosphagens and myoglobin in leg skeletal muscle
P. Möller and R. Brandt
- 315 Influence of fibre ingestion on carbohydrate utilization and absorption
J. Wahren, A. Juhlin-Dannfelt, O. Björkman, R. DeFronzo and P. Felig
- 323 Subcutaneous blood flow during insulin-induced hypoglycaemia: studies in juvenile diabetics with and without autonomic neuropathy and in normal subjects
J. Hilsted, S. Madsbad and L. Sestoft
- 333 Tissue zinc level as an index of body zinc status
M. J. Jackson, D. A. Jones and R. H. T. Edwards
- 345 Can body potassium of old people be predicted from anthropometric data?
M. Lye and E. B. Faragher

NUMBER 5, OCTOBER 1982

Editorial

- 351 Insulin pump treatment for diabetes: some questions can be answered already
M. Berger, G. E. Sonnenberg and E. A. Chantelau

Original articles

- 357 Subcutaneous blood flow over 24-hour periods in patients with severe leg ischaemia
K. Bjerre-Jepsen, I. Faris, O. Henriksen and N. A. Lassen
- 363 Stimulation of β -adrenoceptors in the exercising human forearm
O. J. Hartling and J. Trap-Jensen
- 373 Heparin-released lipolytic activity in the forearm vascular bed in patients with hypertriglyceridaemia
B. Eklund and B. Söderberg
- 379 Density dependence of maximal expiratory flows in normal subjects: influence of sex, age, body build and spiographic variables
D. B. Teculescu, B. Hannhart, R. Peslin and J. Pino
- 391 Ventilatory patterns during steady state and progressive exercise
O. Szekely, J. Askanazi, S. H. Rosenbaum, R. Foster, J. Milic-Emili and J. M. Kinney
- 401 Renal function and digoxin clearance during quinidine therapy
K. Schenck-Gustafsson, A. Juhlin-Dannfelt and R. Dahlqvist
- 409 Measurement of stroke volume with impedance cardiography
I. Milsom, R. Sivertsson, B. Biber and T. Olsson
- 419 Resting ECG in athletic and non-athletic adolescent boys: correlations with heart volume and cardiorespiratory fitness
S. Sundberg and R. Elovainio
- 427 Reference values for intramuscular pressure in the lower leg in man
P. Qvarfordt, B. Eklöf and P. Ohlin

NUMBER 6, DECEMBER 1982

Original articles

- 435 Left ventricular function at rest and during exercise in coronary insufficiency—A simultaneous evaluation by means of radionuclide angiocardiology and catheterization
J. A. Dahlström, B. Lilja, O. Ohlsson and A. Torp
- 447 Effects of externally applied compression on blood flow in subcutaneous and muscle tissue in the human supine leg
H. V. Nielsen
- 459 Detection of coronary artery disease with gated cardiac blood-pool scintigraphy: comparison of cold pressor test and dynamic exercise
K. Rootwelt, J. Erikssen, S. Nitter-Hauge and E. Thaulow
- 467 Non-invasive determination of the distribution of cardiac output in man at rest and during exercise
S-E. Svensson, M. Lomsky, L. Olsson, S. Persson, H. W. Strauss and H. Westling

Contents

- 479 Determination of the subcutaneous tissue to blood partition coefficient in patients with severe leg ischaemia by a double isotope washout technique
K. Bjerre-Jepsen, I. Faris, O. Henriksen and K. H. Tønnesen
- 485 The effect of temperature, ischaemia and contractile activity on the relaxation rate of human muscle
C. M. Wiles and R. H. T. Edwards
- 499 Metabolic heat production in isometric ischaemic contractions of human adductor pollicis
C. M. Wiles and R. H. T. Edwards
- 513 Response of finger systolic blood pressure to cold provocation in cases with hypertension and diabetes
O. Thulesius, K. Valmin and R. Todoreskov
- 521 Transcutaneous versus arterial oxygen tension during exercise in chronic pulmonary disease
M. Kornum, H. Oxhøj and G. Nielsen
- 529 Effect of cigarette smoking on basal and carbon dioxide stimulated cerebral blood flow in man
Å. Wennmalm
- 537 Author index
